Dear Parents,

M. A. Milam schools will soon be implementing i-Ready Summer Lessons in Reading and Mathematics. These lessons have been carefully selected to support and enrich your children as they transition into the next grade level. The lessons will be available by June 8, 2018. The lessons should be completed by July 19, 2018. These lessons are highly recommended as they are necessary to your child's success in the 2018-2019 school year.

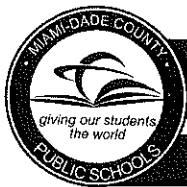

The lessons will be preprogramed and can be accessed by logging in through the MDCPS Student Portal. The administration at Milam K-8 Center will be monitoring student progress throughout the summer. Each student can use the attached Home Summer Log 2018 to help keep track of the lessons completed. It is important that as parents you support your child by helping them organize their time. Students will need to work on i-Ready for approximately 30 minutes a day; 4 to 5 times a week. The student Home Summer Log 2018 has an area for parents to initial as the students complete each assignment.

When students return to school on August 20, 2018 the homeroom teachers will collect the completed Home Summer Log 2018 and give the student an extra-credit A for his/her summer work. Additionally, each student will receive a "Surprise Reward" from the Milam Administration.

The Milam family has always believed that a team effort is the best approach to the success of our students. We are looking forward to working together with our students' families to ensure they start the 2018-2019 school year in a positive manner. If you have any questions or concerns, please contact Mrs. Yvette Fuentes, Reading Coach at YFuentes@dadeschools.net

Thank you,

Erika Rolfe, Ed. D., Assistant Principal

Estimados Padres,

M. A. Milam pronto implementará lecciones de i-Ready en Lectura y Matemáticas para el verano. Estas lecciones han sido cuidadosamente seleccionadas para apoyar y enriquecer a su hijo/a a medida que pasan al siguiente nivel de grado. Las lecciones estarán disponibles para el 8 de junio de 2018. Estas lecciones deben completarse antes del 19 de julio de 2018. Las lecciones son altamente recomendadas ya que son necesarias para el éxito de su hijo/a en el año escolar 2018-2019.

Las lecciones serán preprogramadas y se puede acceder ingresando a través de MDCPs Student Portal. La administración del Milam K-8 Center supervisará el progreso de los estudiantes durante el verano. Cada alumno puede usar el Registro de Verano en el hogar 2018 (Home Summer Log 2018) adjunto para ayudar a mantener un registro de las lecciones completadas. Es importante que como padres apoye a su hijo/a ayudándolo a organizar su tiempo. Los estudiantes necesitarán trabajar en i-Ready por aproximadamente 30 minutos por día; 4 a 5 veces por semana. El Home Summer Log 2018 del estudiante tiene un área para que los padres pongan sus iniciales cuando los estudiantes completen cada tarea.

Cuando los alumnos regresen a la escuela el 20 de agosto de 2019, los maestros recogerán el Home Summer Log 2018 y le otorgarán una 'A' adicional por el trabajo de verano. Además, cada estudiante recibirá una "Recompensa Sorpresa" de la Administración de Milam

La familia Milam siempre ha creído que un esfuerzo de equipo es el mejor enfoque para el éxito de nuestros estudiantes. Estamos ansiosos de trabajar juntos con las familias de nuestros estudiantes para asegurar que comiencen el año escolar 2018-2019 preparados. Si tiene alguna pregunta o inquietud, póngase en contacto con Sra. Yvette Fuentes, Reading Coach en YFuentes@dadeschools.net

Gracias,

Erika Rolle, Ed. D., Assistant Principal
